Yingli Solar is a world leader in solar panel manufacturing. In the Americas, our panels are trusted by tens of thousands of homeowners, Fortune 500 companies, and premier financial institutions.

PROVEN SOLAR PANELS FROM ONE OF THE WORLD’S LARGEST PV MANUFACTURERS

DESIGNED TO PERFORM
• Unique product lines are specifically tailored for residential, commercial, and large-scale applications.
• Engineered to maximize performance and durability with best-in-class material components from glass to backsheet.

BUILT TO PERFORM
• High product quality is achieved through automated, sophisticated manufacturing processes that include 30+ quality control steps.
• Rigorous third-party and in-house durability testing goes beyond industry standards to ensure reliable long-term performance.

PROVEN TO PERFORM
• Independent bankability assessments and third-party tests objectively demonstrate that Yingli panels outperform the competition.
• Performance is backed by our industry-leading 25-year linear power warranty, 10-year product warranty, and optional project-specific performance guarantees.

AT-A-GLANCE IN THE AMERICAS

2,400+ MW
Power deployed to 20+ countries

95,000+
Yingli powered solar projects

6,000,000+
Panels deployed for diverse applications

5 Local Offices

WE OFFER DEDICATED SERVICES THAT DRIVE YOUR BOTTOM LINE

OPERATIONS

• We deliver expert logistics in tandem with top-tier expediters to provide on-time deliveries through a regional warehouse network.

MARKETING

• Co-marketing, event support, and lead generation opportunities are available for Yingli partners through our San Francisco-based marketing team.

TECHNICAL

• Locally-based engineers evaluate project-specific technical requests and offer value-added services such as balance-of-systems evaluations, commissioning and field-testing support.

• Our sophisticated technical team can also provide highly accurate system modeling files and performance modeling support to facilitate project planning and financing.
