

YINGLI SOLAR FOR YOUR HOME

Yingli Solar is a world leader in solar panel manufacturing. From the home of soccer legend Mia Hamm to the buildings of Fortune 500 companies, Yingli Solar panels are powering the world.

CHOOSE PROVEN SOLAR TECHNOLOGY FROM AN INDUSTRY-LEADING SUPPLIER

DESIGNED TO PERFORM

- **Yingli Solar panels are built-to-last.** We use premium materials from top suppliers such as DuPont™ to ensure long-term durability.
- **Yingli Solar panels are designed for homes.** One size does not fit all: Our YGE 60 Cell Series panels complement your home with aesthetic options for frames and backsheets.

BUILT TO PERFORM

- **Yingli Solar panels are superior quality.** Our highly automated and sophisticated manufacturing process includes more than 30 quality control steps.
- **Yingli Solar panels surpass industry standards.** Our rigorous durability testing goes beyond standard certification requirements to ensure reliability, even in tough climates.

PROVEN TO PERFORM

- **Yingli Solar panels outperform the competition.** Third-party tests validate Yingli's superior energy yield in the field.
- **We stand behind Yingli Solar panels.** Performance is backed by our industry-leading 25-year power and 10-year product warranties.

Offices in New York and San Francisco

YINGLI SOLAR SUCCESS STORIES

YINGLI POWERS HIGH-PROFILE FAMILIES: MIA HAMM AND NOMAR GARCIAPARRA

"I want future generations to enjoy the same fields, air, and environment that have meant so much to me. When I realized solar power could reduce our energy bill, I was convinced! **Going solar has been more rewarding – both personally and financially – than I ever imagined it could be.**"

Mia Hamm, U.S. Women's Soccer Gold Medalist and proud Yingli Solar adopter

YINGLI POWERS PRESTIGIOUS INSTITUTIONS: HARVARD UNIVERSITY

"The Yingli Americas team has proved time and time again that **they are among the world's most reliable solar module suppliers.** We trusted Yingli to meet our client's high expectations."

Anita Orozco, Purchasing and Logistics Manager for Borrego Solar, Inc., Harvard University's solar installation provider

YINGLI POWERS FAMILIES IN NEED: GRID ALTERNATIVES

"We are proving that if solar is a viable technology for low-income families, then **solar can work for anyone, anywhere.**"

Erica Mackie, Executive Director and Co-Founder of GRID Alternatives, the nation's largest non-profit solar installer

YINGLI POWERS LEADING COMPANIES: KAISER PERMANENTE

"**What's good for the environment is good for our health.** By expanding the use of solar power, Kaiser Permanente is committed to greening its energy portfolio and reducing its carbon footprint."

Raymond J. Baxter, PhD, Sr. Vice President of Kaiser Permanente, a leading healthcare provider
